**Feeding the
Community**

Upcoming Events

January 12– Report Cards go home

January 15- MLK Jr. Holiday- No
School

January 17-American Revolution Test

This Week's Focus

Math - We are currently reviewing all previous computation and place value skills and have begun a fraction unit. Students are spending a lot of time using fraction circles, squares and bar manipulatives to find equivalent fractions. Parents, please show your child useful applications of fractions in real life. Some great examples are mechanical tools, cooking, measuring fruits/vegetables at the grocery store and basically any type of customary measurement.

Science - Our new unit is space. It is split into 3 sections. The first section that we will investigate is the relationship of the sun, earth and moon. We will be recording the moon phases in class. Please dust off those telescopes and enjoy looking up into the vast universe with us.

Reading-We will be finishing "Charlie & the Chocolate Factory." We will watch the original movie & complete a movie/book comparison.
Grammar- We are reviewing nouns, verbs, prepositions and adjectives.

Writing-We are reviewing & editing our Write Score papers.

Social Studies-Our focus is on the forming of a new nation & the creation of the Declaration of Independence.
